DEMOCRATIC TICKET

FOR GOVERNOR—
JUDSON HARMON, Hamilton.
For Lieutenant Governor—
ATLEE POMERENE, Stark.
For Supreme Court Judges—
M. H. DONAHUE, Perry.
JAMES JOHNSON, Clark.
For Attorney General—
TIMOTHY HOGAN, Jackson.
For Secretary of State—
CHARLES H. GRAVES, Ottawa.
For Clerk Supreme Court—
FRANK MCKEAN, Cuyahoga.
For State Treasurer—
D. S. CREAMER, Belmont.
For Dairy and Food Commissioner—
S. E. STODOL, Crawford.
For School Director—
FRANK W. MILLER, Montgomery.
For Member Board of Public Works—
J. A. STATES, Allen.
For Member of Congress—
J. H. GORKE, of Auglaize.
For State Senator—
W. N. SHAFER, of Paulding.
For Circuit Court Judge—
PHILIP M. ORWIG, of Hardin.
For Common Pleas Judge—
H. T. MATHERS, of Shelby.
For Representative—
SAMUEL J. VINING.
For Clerk of Courts—
WALTER L. JOHNSON.
For Sheriff—
SHELL M. FISHER.
For County Auditor—
JAMES L. MORROW.
For County Commissioner—
FRANK DILLHOFF.
For County Recorder—
ISAAC N. KISER.
For County Treasurer—
JOHN H. ALBERS.
For County Surveyor—
DILLON R. SMALLEY.
For Prosecuting Attorney—
JOHN G. ROMER.
For Inferior Judges—
ANDREW BRUNSWICK.
HENRY N. KILPATRICK.
GEORGE H. PRESTON.
For Coroner—
HARRY L. NIGHT.

What a cataclysm was that when the New York Republican committee turned down for temporary chairman of their convention the only man on earth who believed he is competent to rule the universe. It was enough to drive the planets from their course and cause the political skies to tumble in confusion.

Think Now and Act in November

Governor Harmon took a stand before the legislature in favor of a 10-mill tax limit. The platform adopted at Dayton approved his position. The Republican platform also declares for a 10-mill limit, but the Republican forced through a bill for a 15-mill limit that is so "elastic" that it can be stretched to any length. If the taxpayers of Ohio want a 10-mill tax limit to protect them against extortion on property appraised at full value they must re-elect Governor Harmon and give him a legislature with a Democratic majority in both branches. A legislature with a Democratic majority in one branch would be helpless. A Democratic house might pass a 10-mill tax limit bill, and a Republican senate would kill it or mangle it as the present Republican legislature did to the bill recommended by Governor Harmon. A Democratic senate might pass a 10-mill tax limit bill and a Republican house would kill it or mangle it.

The election of a Republican legislature, or a legislature with a Republican majority in either branch, would mean the violation of the insincere 10-mill tax limit plank of the state g. o. p. platform with as little conscience as a Republican Congress violated the promise of revision downward made by Mr. Taft and his platform two years ago.

A Republican legislature, or a legislature with a Republican majority in either branch, would mean that the present unsatisfactory "elastic" 15-mill tax limit law would remain unchanged or would be revamped and made still more indefinite and uncertain.

The choice is before those voters who will be called upon to pay taxes after this year on real and personal property appraised for taxation at the true value in money. The warning and the caution are given now. The time for thinking is during the campaign. The time for decision is at the ballot box in November.

If you vote to fool the taxpayers of Ohio this fall on this tax proposition as you did the people of the nation on the g. o. p. tariff promises two years ago, don't come around next year when you pay your taxes and whine that you wouldn't vote the same way if you had it to do over again.

Protectionism and Insurgency

If the Republicans of Iowa are as firmly convinced of the incontrovertible soundness and wisdom of Protection as their platform declares them to be, they are hot upon the highway toward a shocking disillusionment. For in the some platform they point to "the difference between the cost of producing dutiable commodities at home and abroad" as the one important fact to be known, and therefore favor the creation of a non-partisan commission to ascertain that difference and publish the facts. Let this be honestly and efficiently done, and all apparent need for Protection to maintain "American wages," the only consideration in support of Protection that has any value outside the directors' rooms of tariff-sheltered trusts and the confidential intercourse of domineering Standpat leaders, will vanish.

The difference in the cost of production in this county and abroad once generally known to the American people, it will be obvious to every voter, though a wayward fool, that the cost of production is lower in the United States than anywhere else in the world. The reason is that wages of labor are higher everywhere else than here. The notion that American wages are relatively high, rests upon a ludicrously illogical method of comparison. Look at comparative wage statistics in any or all Protection literature, and you will find that the time consumed in production, and never the resulting product, is the basis of comparison. Because labor abroad gets, say, a dollar a day, whereas American labor in the same industry gets, say, two dollars, the conclusion is implied and often asserted, that American industries cannot pay American wages unless competing foreign products are burdened with a tariff high enough to make up for the lower wages abroad. This is like saying that a freight car can't compete with a wheelbarrow because it costs so much more. The comparative productiveness of American and foreign labor, the determining factor, is ignored. If American labor at two dollars a day produces, say, twice as much in a day as labor abroad at one dollar a day, why is protection necessary to maintain American wages?

That is the question Protectionists will have to answer to a befuddled people, when the Insurgents shall have made common knowledge of the difference between cost of production abroad and at home, which is one of our reasons for liking the Insurgents in spite of their fatuous confidence in the soundness and wisdom of Protection. We suspect that it is one of the reasons why they are not liked by Aldrich and other shrewd beneficiaries of Protection.—The Public, Cincinnati.

Political Crop Prospects

As Kansas is one of the great agricultural states of the union it may not be out of place to borrow an illustration from the fields to explain the prospects of the different parties. The Insurgents are reformers but they do not go as far as the democrats do. The standpaters are supposed to oppose all progress, but as a matter of fact, even the standpaters are moving just a little. It is a matter of degree. The attitude of the three parties on reforms may be likened to three corn fields—the democratic field was planted in May, the insurgent field was planted in June and the standpat field was planted in July. Of course the democratic corn is more advanced, although some of it was injured by late frosts. The insurgent corn is growing nicely and was greatly refreshed by the recent primary shower. The standpat corn is naturally the most backward; it did not come up well and some of the seed fell where the thorns sprang up and checked it—it has suffered considerably, too, from a hot wind from Illinois that swept over the state recently and "fired" a number of stalks.

And the crop? Well the democratic field seems to promise the largest yield; the insurgent field will need good weather up to November to mature the grain; and, as for the standpat corn, it will hardly make fodder.—The Commoner.

PAINT'S BATTLE IN THE CLOUDS

Stupendous Production a Nightly Free Feature at the Ohio State Fair.

Night entertainment will be featured at the coming Ohio State Fair. Grounds and buildings will be brilliantly illuminated and many novel light effects are planned. Weber's Prize Band will be heard in concerts each evening. Twenty free circus acts are programmed. The leading feature will be the nightly presentation of Paint's stupendous production, "Battle in the Clouds." In this, aerial warfare is truly depicted. The curtain of time is brushed aside and a peep obtained at the war dogs and methods of warfare one hundred years hence. The havoc and destruction that aeroplanes will create in future wars is vividly portrayed. While the story of the "Battle in the Clouds" is a mythical one, so much progress has been made in aerial navigation that its realization may occur within the next decade. Two hundred and fifty persons are employed in the production, and aeroplanes, dirigible balloons, and the air craft play prominent parts in the unfolding of its story. Each night's production concludes with a \$5,000 display of Paint's Manhattan Beach fireworks.

The Ohio State Fair opens Monday, September 19th, continuing five full days. Its education features promise to be more numerous than ever before, while its program of amusement and entertainment is the most elaborate ever offered.

Record breaking crowds are assured, and Columbus citizens are planning to entertain the largest number of visitors ever within the gates of the capital city.

The Great Darke County Fair, August 22 to 26, 1910.

Ohio Democratic State Platform

The platform adopted by the Democratic convention is as follows:

The Democratic party of Ohio in convention assembled, reaffirms its faith and devotion to those essential principles of Democracy which have ever held the party together in victory and defeat; its unity and confidence after a long series of reverses in national elections are sufficient attestation to the sincerity of its belief.

Guided by these principles the Democratic party founded national unity and prosperity, and established local self-government for the states and municipalities. They are alike applicable to the government of the nation and the state. The coming campaign in Ohio for the election of state officers should and must be fought on state issues, and it is therefore proper that we declare first and foremost our position upon these questions of state government in which the people are most interested.

We submit to the voters the record made and making by the present Democratic state administration. Every dollar of the people's money on hand is working for them, instead of for officeholders and favored politicians, drawing full interest as the result of fair competition, and that interest is now all going into the treasury for the first time in many years.

Instead of protecting and defending grafters, as was the way of Republican officers, the present government is having them prosecuted and sued for the return to the state of the many thousands of dollars secured by fraud and wrong-doing.

Every agency at his command is being employed to bring to account officers who were recurrent to the trusts reposed in them by the people.

The governor is handicapped in the task of purifying and improving the public service by the opposition of a hostile legislature and Republican state officials. He will continue the work as well begun, but we call on the citizens to uphold him by electing his associates on the ticket and a legislature that will help, instead of hinder, in eliminating graft, introducing business methods and great the efficiency of the state, reducing the cost of state institutions and departments.

Planks in Platform.

We favor a maximum aggregate tax rate of 10 mills, without any right to increase it, except by a vote of the people.

We favor the fair and just regulation of all public utilities as well as railroads, with the right of home rule as to franchises, carefully guarded.

We favor the ratification of the income tax amendment of the federal constitution, which was ratified by the present Republican legislature.

We demand the election of United States senators by direct vote of the people.

That and we pledge a Democratic legislature to take the necessary action looking to a convention of the states to adopt the constitutional amendment required.

Ending the campaign for compliance with the people's demand, so long denied by a Republican senate, we promise the enactment by a Democratic legislature of a law for the public sentiment will enforce it, providing for the nomination of senators by popular vote at the regular elections in senatorial years.

We favor a uniform school book law. The principle of the initiative and referendum.

The extension of the teaching of agriculture.

Big Fair at Portland, Ind., August 29 to September 2

Excursion rates to Portland Fair on Thursday, September 1.
Special train leaves Portland at 7 o'clock p.m. for Ft. Recovery, Coldwater and Celina.

BLOODED COWS WILL COMPETE

Exposition Gives Prizes for Milk Production.

MODEL DAIRY ON GROUNDS

Milking by Electricity, Pasteurizing, Sterilizing and Separating Processes to Be Shown in Full Detail at Ohio Valley Exposition. Six Different Bovine Breeds Will Furnish Records of Great Value to Farmers and Dairymen.

Cincinnati, O.—(Special).—Active milk-producing competition between cows of six of the best and most favorably known breeds of cattle in the world will be an interesting feature of the dairy exhibit of the Ohio Valley Exposition, to be held at Cincinnati from August 29 to September 24. Some time ago plans were perfected for the installation of a model dairy in which the milking of cows and the various processes of handling milk were to be shown under the latest and most sanitary methods.

This plan included milking by electricity, pasteurizing, sterilizing and separating under most approved conditions, and the making of butter, cheese, ice cream, etc., all in full view of visitors to this department. To this arrangement now has been added a system for making records of the productive qualities of various breeds of cows. It is proposed to place in this model dairy two each of six well-known breeds of cows, Jerseys, Guernseys, Ayrshires, Durhams, Holsteins and Alderneys being included in the list. Only registered cows will go into the exhibit, thus assuring the best possible results for each breed. Careful records will be taken daily of the quantity of milk secured from each cow, together with the amount of cream produced, as well as statistics showing the amount and quality of the various by-products. These records will be posted daily on the stall of each cow, with weekly records for individual

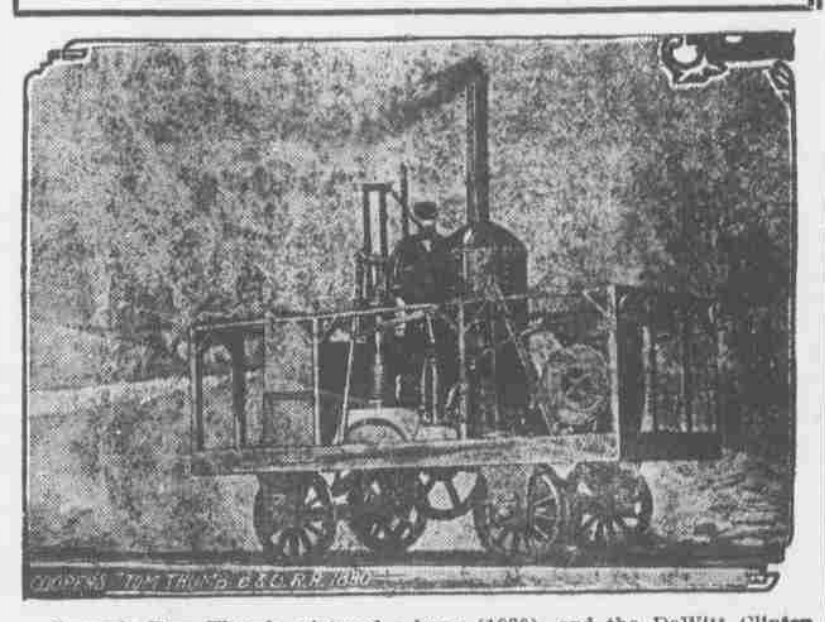

contiguous to the Southern California metropolis. Many of these fruits will be similar to those shown by the Florida growers, none of whom, however, fear the comparison, as Florida fruits long have had a high standing in the Ohio Valley market and are in no fear of being crowded out. One of the most interesting displays to be made by both sections will be that of grape fruit. Twenty years ago these mammoth globes of luscious citrus pulp were unknown to epicures. Today no breakfast table is complete without them, and the demand annually is much greater than the supply. It is estimated that 2,000,000 boxes of grape fruit, averaging about 50 pieces to the box and selling at an average of \$2.03 per box, are consumed annually in the United States. Of this amount a large percentage comes from Florida, with California also producing an appreciable quantity, while Central America and the islands in the Gulf of Mexico and the Caribbean sea supply the rest of the demand. It is expected that the general fruit display at the Exposition will be the most complete exhibit of this kind ever gathered together, with the South showing a greater variety than any other section of the country.

RAILROADS TO MAKE EXPOSITION RATES

Public Can Journey to Cincinnati on Low Fare Tickets.

Cincinnati, O.—(Special).—For the first time since the various state legislatures took a hand in the matter of fixing railroad rates, the various companies operating in the Central and Southeastern Passenger association territories are offering liberal reductions from the regular rates in fixing the scale for round trips to the Ohio Valley Exposition, which is to be held in Cincinnati from Aug. 29 to Sept. 24. Realizing the great industrial and commercial benefits involved in this project, the railroads have established a series of tariffs that are certain to add to the general attractiveness of this gigantic enterprise, which bids fair to be the most

FIRST AMERICAN LOCOMOTIVE

Cooper's Tom Thumb, pictured above (1830), and the DeWitt Clinton (1831), were the first successful steam locomotives ever operated. Both will be shown at the Ohio Valley Exposition, Cincinnati, Aug. 29, to Sept. 24.

cows and for the breeds. In this way the interested public may see exactly what each cow is doing, while experts will find in these figures much valuable information. At the close of the Exposition a complete record of the products secured from each breed of cows will be made public, thus affording a table of comparisons that should prove valuable to those directly interested. Naturally, none of the breeds will have any advantage, as every cow will be handled under exactly similar conditions. The "model dairy," which will be built on plans furnished by, and under the supervision of, the State Dairy and Food Commissioner, will be located on a steel island in the center of the canal. It will be built almost entirely of glass, and will be comparatively dustless. Bridges at either end will connect it with the mainland.

FRUIT WILL COME FROM FAR WEST

Cincinnati, O.—(Special).—Southern fruit growers are welcoming the opportunity of displaying their products for comparison with the fruits of the California horticulturists at the Ohio Valley Exposition, to be held in Cincinnati from August 29 to September 24. For some time the fruit growers of the South have been placing the choicest specimens of their groves and orchards in cold storage, with the result that as fine a collection of Florida fruits as ever was assembled will be ready for display when the Exposition opens. Now comes word from California that the Chamber of Commerce of Los Angeles will apply for 1,500 square feet of floor space on which to make an exhibit, which shall consist principally of fruits, attractively arranged, and which are grown in the territory

important industrial congress ever held in the Middle West.

In the Southeastern passenger association territory a rate of 4 cents per mile, plus 25 cents, for the round trip, which is equal to a rate of 2 cents per mile each way, is authorized, beginning Aug. 24 and continuing to Sept. 24, with the return limit at point of destination on Sept. 29. A further reduction to 3 cents a mile for the round trip, equaling 1 1/2 cents per mile each way, plus 25 cents, is authorized on tickets to be sold daily during the time of the Exposition from all points beyond a radius beyond which rates on this basis would figure higher than \$5, the final limit on such tickets to be 10 days from and including date of sale. Also tickets to be sold at 8 cents per mile, plus 25 cents for the round trip, equaling 1 1/2 cents per mile each way, plus 25 cents, daily during the period of the Exposition from points within a radius where rates on this basis would make \$5 or less, with final limit to reach original starting points returning five days from, but not including date of sale.

In the Central Passenger association territory season tickets will be sold at the rate of 3 cents a mile each way, beginning Aug. 24, with return limit good to and including Sept. 30. From Louisville, Indianapolis, Columbus and points about equidistant, on other railroads, a rate of one and one-half fare for the round trip is established, tickets to be sold on Tuesdays and Fridays of each week during the Exposition, with return limit of three days, including date of sale. From territory beyond points above named, tickets will be sold at one and one-half fare from all points in the Central Passenger association territory on Wednesday of each week during the Exposition, with return limit of seven days, including date of sale.

13th Year in Celina Dr. MAHON, of Toledo, O.

Specialist in Chronic Diseases
In all its varied forms, SEE HIM—see his patients—and if you are not satisfied, don't take treatment. Persons desiring treatment should bring a small bottle of urine, as it may assist in the diagnosis. Dr. Mahon carries all his portable instruments and comes prepared to examine the most obscure cases.

DR. MAHON, 2463 Fulton Street

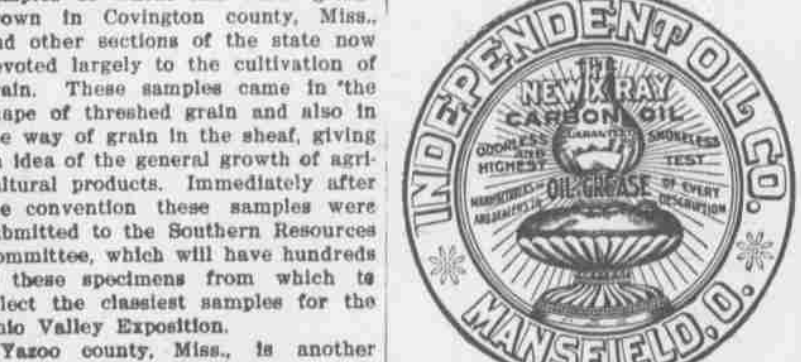

The Western Ohio Automobile Co.

Successors to W. H. CONNER GARAGE South Main St., CELINA, OHIO.
AGENTS for E. M. F. "20" Touring Car—\$1,250. No need of advertising this car—the owners do this. Also, DeMott Runabout, 11 h. p. Shaft Drive, Magneto, Complete at \$550. Also Distributor for Mr. Wise for the Ford Models in northern half of the county—Runabout, Tourabout and Touring Car, 40.
Call for Metal and Body Polish for cars. Price, 50c and 60c.
We are prepared to REBUILD, REPAIR and REPAINT CARS at moderate cost, our repair department being in charge of Henry Siebert, late of Standard- Dayton Co., who is conceded one of the best repair men in Ohio. Bring in your car and let us look it over—if there is nothing wrong with it, we will tell you so. Many a car is ruined by neglect in looking after the small repairs.
on by Mr. Conner.

Roosevelt and Harmon at Dayton

Dayton, O., August 17.—Clifford B. Harmon, of New York, the wealthy amateur aviator and aviator and president of the Aero Club of America, the international body, is not going to see his cousin Governor Harmon left behind when it comes to a matter of aerial flight. Mr. Harmon the New Yorker is to be in Dayton during the Fall Festival as the guest of the aviation committee. He is bringing his balloon "New York" with him. It is the largest in the world and holds all records for altitude, length of flight and endurance. He has agreed to make several ascents. A few days ago he heard that Theodore Roosevelt had been invited by Director F. M. Barnes to make aeroplane flights at the Wright Brothers' testing grounds during the Fall Festival. As Governor Harmon is also to be a guest of the city of Dayton exposition week, and as the governor is a second cousin to the rich aviator, the New York Harmon sent a warm letter of invitation to Columbus asking the governor to accompany him in a flight in the great "New York." This is an invitation greatly sought after and it may be the governor will accept.

NOT IN ANY TRUST

OUR RED OR WHITE OIL gives a bright light and does not smoke the chimney. For Incubators it has no equal. Upon receipt of Six Dollars we will ship you one barrel, containing 52 gallons.
